Hey Marc,

tldr; While we still take orders, we will briefly be closing manufacturing after Christmas, however, this year it'll be the shortest break in our history.

Just wanted to send you a mail to let you know the deadlines for our PCB service. As machines will need to be cleaned, our partners use this short timeframe after christmas to get their machines up to speed for the next year! Hence manufacturing will be paused for a short period between **21-12-2022 and 02-01-2023**.

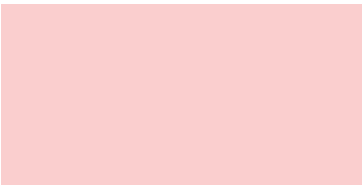

If you want to receive your order this year, be aware of the following deadlines

- 2 Layer Budget: will be delivered next year
- 2 Layer Blitz: order until 18-12-2022
- 2 Layer HD: order until 16-12-2022
- 4 Layer HD: order until 14-12-2022
- 6 Layer HD: order until 14-12-2022

Again, thank you very much for being our customer – you are the reason we exist and continue making hardware less hard everyday! We are very much looking forward to next year where we have plenty of new stuff in store for you!

Wanna rush before the end of the year? Here's a tiny christmas gift for you: use coupon code "**YearEndRun2022**" for a 10 Euro discount on your PCB.

Cheers,

Felix
