Dear Fares,

We know that some of you are worried about the situation in France. We are in close connection with authorities, and we are monitoring the events in realtime.

The competition will take place in compliance with safety standards and at the moment the schedule is maintained.

We will keep you informed of the developments at least on a daily basis by email and via the discord platform.

<https://discord.com/invite/WBR5Zq93AR>

Sincerely,

The RoboCup Federation
